Invites You to Become the

Official Sponsor of ACC

Welcome to the American Consumer Council:

The American Consumer Council (ACC) was founded in 1987 as a non-profit organization and earned tax-exempt 501(c)(3) status in partnership with the California Consumer Council in 1994. With over 100,000 members in 44 states, ACC is the leading consumer education organization and administrator of the **Green CSM Certification** program, which encourages and recognizes businesses and organizations for their Environmental Compliance practices and Corporate Social Responsibility (CSR). ACC also provides consumer education programs, staff support to the Consumer **Green Council**, and educational programs and workshops to companies and consumers on a broad range of topics relating to consumers, environmental compliance, and CSR.

As an Official Sponsor of ACC you'll be supporting a thriving non-profit organization that is leading the way for consumerism and working in partnership with American businesses and organizations to promote Environmental Compliance and Corporate Social Responsibility.

ACC's Consumer Green Council:

The Consumer **Green Council** (CGC) is the volunteer body within ACC that oversees the **Green CSM Certification** program, training and certifying program Assessors, and recommendations for **Green CSM Certification** from the pool of applicants.

Board of Assessors: The CGC Board of Assessors evaluates all **Green CSM Certification** applications and prepares all applicants' feedback reports. Each applicant is assigned to an Assessor Team which evaluates the application against the certification criteria, conducts site visits as required, and prepares the feedback report. The board consists of leading experts from businesses, health care, education, government, and nonprofit organizations who volunteer their time and service to administer this program.

ACC Board of Directors: The ACC elected Board of Directors oversees all activities and programs of the non-profit corporation and its staff administration. The board consists of distinguished volunteers,

recognized consumer advocates, and leaders representing business, education, government, healthcare, and other sectors of our nation's economy.

What is the goal of ACC's Green Certification Program?

The goal of ACC's **Green  Certification** program is to *recognize and certify the Green practices of businesses and organizations throughout North America, and promote Corporate Social Responsibility*. We achieve this goal by incentivizing businesses, government agencies, and non-profit organizations to operate in an environmentally efficient manner, and recognizing those deserving applicants that meet ACC's **Green  Certification**.
