

Fleet Financial is a National Finance and Insurance Marketing firm that focuses on Auto Refinancing.

We offer auto finance solutions with the customer's well-being in mind. There are a lot of companies out there that can provide a loan or refinance your vehicle. Fleet Financial focuses on setting our customers up for success by saving them money and educating them about what is best for their particular financial situation.

Whether you are looking to save money by refinancing your vehicle, want to avoid excess fees and penalties when you're buying out your lease, or you want to build resale value by buying out your company car- Fleet will guide you through the process and make sure you understand what's going on every step of the way.

Fleet Financial also works with companies of all sizes to help employees purchase their own company car or any car from the company fleet. By using this process, employees can buy cars at below market rates. It also helps employers avoid the expensive and pain-staking process of selling their cars to a dealership.

If your company doesn't have a fleet, we can still help you purchase a vehicle for a very reasonable price through our inventory of fleet cars that are available to the public.

Our expert loan consultants will take the time to educate you about auto finance, ensuring that your past mistakes don't continue to affect your credit and your life. Let us help get you out of a difficult financial situation.
